Home Missions
Christian Reformed Church

Dear Brethren,

Please pray as we have in mind to launch a couple of outreach programs with the purpose to minister our immediate community and surrounding areas. We have officially requested our supervising church (Lake Worth CRC) the expended use of their facilities in order to carry on these two programs. We're waiting for a decision to move forward.

One of the programs is oriented to help the documented immigrants, of ant ethnicity, to learn the American system and settle down in this area. We'll be proving guidance as to how to start a new business, English classes, computer training, development of job skills, job placement, preparation of resume, and application to local, state and federal aid among other things.

The second program is the beginning of a Voluntary Pre-Kinder (VPK) for 3-4 years old children. This is a project that would give the minister a great exposure as we make ourselves available to the community providing them an educational service.

Thank you for keeping us present in your prayers.
