How we use your personal information. Your personal information is used to provide you with products and services and to improve our business operations. As part of our day-to-day business, your personal information may be communicated to government departments and agencies, and may be communicated outside your province of residence or outside Canada. We take protecting your personal information seriously and we'll never sell your personal information to anyone.

You're in control of your personal information. We respect your privacy preferences and follow them when using your personal information. At any point in your relationship with us, you can choose how your personal information is used by updating your privacy preferences through your [online account](#) or by submitting a request through our [privacy centre](#) at www.canadalife.com/privacy. This includes choosing whether you receive customer experience surveys, the use of your SIN for non-tax reporting purposes, and whether and how you want to receive information and offers from Canada Life using the personal information we collect from you throughout your relationship with us. You can also exercise other privacy rights through our privacy centre such as access to or correction of your personal information.

If you choose to remove your consent to the collection, use and disclosure of the personal information required to serve you and meet our legal obligations, we may not be able to continue to provide you with products and services.

You are eligible for dependents coverage while you are eligible for employee coverage and you have a qualified dependent.

FOR EMPLOYEE AND DEPENDENTS COVERAGE

Any individual residing outside of Canada will not be eligible to be covered, unless an exception is requested by the employer and approved in writing by Canada Life.

If you and your spouse are employed by the employer, each of you may be eligible for and apply for employee coverage.

EFFECTIVE DATE OF COVERAGE

EMPLOYEE COVERAGE

The effective date of your coverage will be determined as follows:

- (1) When you are required to contribute toward the cost of coverage, on the later of the following dates:
 - (a) the date you become eligible for employee coverage;
 - (b) the date your completed written application is received by the employer, provided application is made within 31 days of your date of eligibility. However, if you apply later than 31 days after your date of eligibility, you must provide evidence of insurability and the effective date of your coverage will be the date Canada Life approves the evidence.
- (2) When you are not required to contribute toward the cost of coverage, your coverage will commence on your date of eligibility.

If you are covered under your spouse's health and/or dental care plan, you may choose not to become covered for the pay-direct prescription drug plan, extended health care coverage and dental care coverage under this group benefit plan. However, if coverage under your spouse's plan should terminate, you may apply for the pay-direct prescription drug plan, extended health care coverage and dental care coverage under this group benefit plan within 31 days.

Should you apply after the 31-day period, the following will apply:

- (1) For the dental care coverage: Coverage will become effective the date you apply. However, benefits will be limited to \$100 per covered person during the first 12 months of coverage.
- (2) For the pay-direct prescription drug plan and extended health care coverage: You must provide evidence of insurability and the effective date of your coverage will be the date Canada Life approves the evidence.

Evidence of insurability may be required to be submitted at your expense.

In any event, if you are not actively at work on the date your coverage is to be effective, it will become effective when you return to active work.

DEPENDENTS COVERAGE

The effective date of a dependent's coverage will be the latest of the following dates:

- (1) If you already have a qualified dependent at the time you become eligible for employee coverage, that dependent's coverage will be effective on the date the employee coverage is effective. However, if you applied later than 31 days after the effective date of your own coverage, evidence of insurability must also be submitted for each of your dependents and their coverage will be effective on the date Canada Life approves the evidence.
- (2) If you have dependents coverage on a dependent on the date you acquire another qualified dependent, this dependent's coverage will be effective immediately.
- (3) If you have no qualified dependents at the time you become eligible for employee coverage and later acquire a qualified dependent, this dependent's coverage will be effective on the date you apply for dependents coverage, provided application is made within 31 days of the date you are first eligible for dependents coverage, otherwise the dependent's coverage will be effective on the date Canada Life approves the evidence of insurability submitted for the dependents.
- (4) A dependent's coverage will be effective on the date the dependent is discharged from the hospital if the dependent, other than a newborn child, is confined in a hospital on the date his or her coverage would otherwise have commenced. This does not apply to the Dental Care Coverage.

Evidence of a dependent's insurability may be required to be submitted at your expense.

CHANGE IN COVERAGE

If your coverage changes due to a change in earnings or classification, or as a result of a plan change, your coverage will not be adjusted until the first day, on or after the date of the change, on which you are actively at work and the appropriate contribution is being made.

If your dependents coverage changes due to a change in your classification, or as a result of a plan change, and a dependent (other than a newborn child) is confined in a hospital on the effective date of the change, the coverage will not be adjusted until the dependent is discharged from the hospital. This does not apply to the Dental Care Coverage.

TERMINATION OF COVERAGE

EMPLOYEE COVERAGE

Your coverage will terminate on the earliest of the following dates:

- (4) the date the employer ceases to make contributions for you;
- (5) the end of the month coinciding with or next following the date you attain the termination age shown in the Summary of Coverages; and
- (6) the date the contract terminates.

Termination of employment

For the purposes of the contract, your employment will be considered to terminate when you are no longer actively at work for the employer. However, if you are absent from work for any of the reasons described in the Continuation of Coverage During Absence From Work section below, the employer may, without discrimination among persons in like circumstance, consider you as not having terminated employment for the purposes of the contract and as continuing to be a member of any eligible class, and coverage will then be continued as outlined in the section below.

CONTINUATION OF COVERAGE DURING ABSENCE FROM WORK

Your coverage will be continued while you are absent from work due to:

- (1) **sickness or injury,**
 - (a) for life coverage, with payment of premium,
 - (i) and you are younger than age 65 and do not qualify for waiver of premium, until the date which is the earliest of:
 1. the date the employer stops paying premiums or otherwise determines that coverage has terminated, and
 2. your attainment of age 65.

- (ii) and you are age 65 or over, until the date which is the earliest of:
 1. the date the employer stops paying premiums or otherwise determines that insurance has terminated, and
 2. the end of the sixth month following the date you ceased to be actively at work due to disease or injury,
- (b) for all other coverage, until the earliest of the dates specified in the above Employee Coverage section.

(2) **temporary layoff**, until the end of the month in which you were laid off.

(3) **approved leave of absence**, the pay-direct prescription drug plan, extended health care coverage and dental care coverage will be continued until the end of the 24th month following the date your leave commenced. Your life coverage will be continued for a maximum of 3 months following the date the leave of absence began.

If the employer has terminated your employment and is required to extend benefits to you during a prescribed notice of termination in accordance with any federal or provincial employment standards legislation, you may continue to be covered under the contract for that period. The employer must ask for the continuation in writing and in no event will it extend past the date on which the contract terminates.

DEPENDENTS COVERAGE

A dependent's coverage will terminate on the earliest of the following dates:

- (1) the date your own coverage terminates;
- (2) the date the dependent ceases to be a qualified dependent;
- (3) the date Canada Life receives a request to terminate the dependent's coverage; and
- (4) the date the employer ceases to make contributions for dependents coverage.

GENERAL INFORMATION

ASSIGNMENT RULES

Death benefits are not assignable, meaning that ownership of death benefits cannot be transferred to any person or organization.

BENEFICIARY RULES

"Beneficiary" means the person you designate in writing to receive the benefits.

Benefits becoming payable under the contract on account of your death will be paid to your named beneficiary. Any benefit amount for which you have not named a beneficiary or there is no surviving beneficiary at your death will be paid to your estate.

You may make, alter, or revoke a designation of beneficiary as permitted by law. Any designation of beneficiary you made under your employer's previous policy prior to the effective date of this policy applies to this policy until you make a change to that designation. You should review your beneficiary designation from time to time to ensure that it reflects your current intentions. You may change the designation by completing a form available from your employer.

If there is more than one beneficiary and the form does not specify their shares, the beneficiaries will share equally.

If a beneficiary dies before you, that beneficiary's interest will end. It will be shared equally by any remaining beneficiaries unless the designation form states otherwise.

CLAIM RULES

Proof of loss

The time limits for submitting proof of loss under a coverage are described in the applicable coverage description page.

Failure to furnish any such proof within the time required will not invalidate or reduce any such claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible.

Quebec time limit for the payment of benefits

Where Quebec law applies, Canada Life will pay benefits in accordance with the terms set out in this policy within the following time period:

Death benefits – 30 days following receipt of the required proof of loss.

All other benefits – 60 days following receipt of the required proof of loss.

Physical examination and autopsy

Canada Life, at its own expense, will have the right and opportunity to have any covered person, whose injury, sickness or treatment is the basis of a claim, examined by a physician or dentist designated by Canada Life when and as often as it may reasonably require during the period of a claim under the contract and, in a case of death, to have an autopsy performed where it is not forbidden by law.

Appeals

You have the right to appeal a denial of all or part of the insurance or benefits described in the contract as long as you do so within one year of the initial denial of the insurance or a benefit. An appeal must be in writing and must include your reasons for believing the denial to be incorrect.

Legal action

Every action or proceeding against an insurer for the recovery of insurance money payable under the contract is absolutely barred unless commenced within the time set out in the *Insurance Act* (for actions or proceedings governed by the laws of Alberta and British Columbia), *The Insurance Act* (for actions or proceedings governed by the laws of Manitoba), the *Limitations Act, 2002* (for actions or proceedings governed by the laws of Ontario), or other applicable legislation. For those actions or proceedings governed by the laws of Quebec, the prescriptive period is set out in the Quebec Civil Code.

OVERPAYMENT OF BENEFITS

Nothing in this group benefit plan will prevent Canada Life from recovering any overpayment of benefits from the person or organization to whom such payment has been made, irrespective of the cause of such overpayment.

If benefits are paid that were not payable under the policy, you are responsible for repayment within 30 days after Canada Life sends you a notice of the overpayment, or within a longer period if agreed to in writing by Canada Life. If you fail to fulfill this responsibility, no further benefits are payable under the policy until the overpayment is recovered. This does not limit Canada Life's right to use other legal means to recover the overpayment.

COORDINATING COVERAGE GUIDELINES FOR OUT-OF-COUNTRY/PROVINCE HEALTH CARE EXPENSES

If a person who is covered under the contract for global medical assistance coverage or for expenses resulting from emergency or referral health care provided outside Canada or outside the province of residence under the extended health care coverage is also covered under another plan or plans* which provides similar coverage, any claim will be coordinated with the other plan(s) in accordance with the coordinating coverage guidelines for out-of-country/province health care expenses as outlined by the Canadian Life and Health Insurance Association Inc.

* The "other plans" may include employment-related group contracts, individual or group travel or health policies, credit card coverages or any other private insurance source.

COORDINATION OF BENEFITS

If a person who is covered under the contract for the pay-direct prescription drug plan, extended health care coverage or dental care coverage is also covered under another plan* which provides similar coverage, any claim will be coordinated and/or reduced so that benefits payable from all plans will not exceed 100% of the eligible charges incurred.

* The "other plan" is defined as group insurance or any other arrangement of coverage for individuals in a group, whether on an insured or uninsured basis, including any prepayment coverage or capitation plan, as long as the group is not formed solely for the purpose of obtaining insurance. This definition of other plan does not include school insurance or individual travel insurance.

If a person is eligible to receive benefits under this plan and the same, or similar benefits under another plan, payment will be determined as follows:

- (1) The plan which does not contain a coordination of benefits provision will pay before the plan which does.
- (2) If the other plan(s) contains a coordination of benefits provision, priority will be given to the plan(s) in the following order:
 - (a) The plan where the person is covered as a member. However, if a person is a member of 2 or more plans, priority will be given as follows:
 - (i) the plan where the member is covered as an active full-time employee,
 - (ii) the plan where the member is covered as an active part-time employee,
 - (iii) the plan where the member is covered as a retiree.
 - (b) The plan where the person is covered as a dependent spouse.
 - (c) The plan where the person is covered as a dependent child. However, if a person is covered as a dependent child under 2 or more plans, priority will be given as follows:
 - (i) the plan of the parent with the earlier date of birth (month/day) in the calendar year,
 - (ii) the plan of the parent whose first name begins with the earlier letter in the alphabet, if the parents have the same date of birth.

An exception to this rule occurs if the parents are separated/divorced, in which case priority will be given as follows:

- (i) the plan of the parent with custody of the child,
- (ii) the plan of the spouse of the parent with custody of the child,
- (iii) the plan of the parent not having custody of the child,
- (iv) the plan of the spouse of the parent in (iii) above.
- (d) Health plans with dental accident coverage will determine benefits before dental plans, where a person may be able to claim under both plans.
- (e) If priority cannot be established using the above priorities, the benefits will be prorated in proportion to the amounts that would have been paid under each plan had there been coverage under just that plan.

If payments which should have been made under the contract by the terms of this coordination of benefits provision have been made under any other plan, Canada Life will have the right to pay to any company or organization the amount necessary to satisfy the intent of this coordination of benefits provision. The amounts paid in this manner will be considered benefits paid under the contract and Canada Life will be fully discharged from liability to the extent of the payments made.

If payments have been made by Canada Life under the contract which are in excess of the maximum amount of payment necessary to satisfy the intent of this coordination of benefits clause, Canada Life will have the right to recover any such excess from any company or organization or person to or for whom such payments were made.

Benefits under a coverage will be payable to you unless otherwise specified within the coverage.

EMPLOYEE LIFE COVERAGE

FOR YOU

PART I. DEATH BENEFITS

DEFINITION

Where used in this coverage, "total disability" or "totally disabled" means:

- (1) you are not working for wage or profit; and
- (2) due to bodily injury or disease, you are not able to engage in any and every gainful occupation for which you are reasonably fitted by education, training or experience.

A. DEATH BENEFIT

If you die while covered under this coverage, the amount of your life coverage (shown in the Summary of Coverages) that is in effect on the date of your death will be paid when Canada Life receives due written proof of death.

B. EXTENDED DEATH BENEFIT DURING TOTAL DISABILITY

If you become totally disabled while covered under this coverage and are younger than age 65, Canada Life will, upon receipt of satisfactory proof of total disability, continue the coverage **without payment of premiums** while you are totally disabled, subject to the remainder of this section B.

Notice that total disability exists and has continued without interruption for at least 6 months must be given to Canada Life within one year after commencement of total disability. Satisfactory proof of total disability must be given to Canada Life within 3 months of the date of notice and thereafter when and as required by Canada Life once each year.

The amount of coverage continued is the amount for which you were covered at the date of commencement of total disability. However, if the coverage would normally reduce when you attain a certain age or for any other reason, the amount of coverage continued under this section B. will reduce accordingly.

Upon your death the amount of coverage will be paid provided satisfactory proof is submitted that such total disability continued to the date of death.

If you die before age 65 and within a year after the date of commencement of total disability and before any proof has been given, then notice that total disability continued to the date of death must be given to Canada Life within one year after death. Satisfactory proof must be given to Canada Life within 3 months of the date the notice is received by Canada Life.

If an individual policy of life insurance has been issued in accordance with section D. Conversion Privilege, payment will be made only if the individual policy is surrendered without claim.

This extension protection will immediately terminate if you:

- (1) cease to be totally disabled;
- (2) reach age 65;
- (3) retire;
- (4) fail to furnish any required proof that the total disability continues; or
- (5) fail to submit to a medical exam by physicians named by Canada Life when and as often as Canada Life requires.

If the extension protection ends after you have given proof of total disability and you have not returned to active work with the employer, you have the same rights and benefits under section D. Conversion Privilege as if you ceased to be covered under this coverage.

C. EXTENSION OF BENEFIT

A death benefit is payable if you die within 31 days after ceasing to be covered under this coverage. The amount of the benefit is equal to the amount of life coverage you were entitled to convert under section D. Conversion Privilege.

D. CONVERSION PRIVILEGE

If you cease to be covered under this coverage on or before your attainment of age 65, your coverage may be converted to an individual life insurance policy without evidence of insurability. The policy will be issued in accordance with the applicable laws or guidelines in effect in your province of residence. The amount converted must be at least equal to the minimum amount for which Canada Life will issue an individual policy for the plan of insurance chosen.

The premium for the individual policy will be based on Canada Life's premium rate as of the effective date of the individual policy, according to the plan of insurance chosen, the amount of insurance converted and your attained age.

You must apply for the individual policy and pay the first premium within 31 days after ceasing to be covered under this coverage. The individual policy will be effective 31 days after this coverage is terminated.

If you convert all or part of your life coverage under the terms of this section D., you will not be eligible for further coverage under this coverage, unless the individual policy is cancelled.

E. TO WHOM PAYABLE

Any benefits payable on account of your death will be paid to your beneficiary determined under the beneficiary rules shown on the General Information page.

F. PROOF OF CLAIM

Written proof of a claim must be given to Canada Life in accordance with the following:

Death claim - not later than 5 years after the date of death.

Disability claim - written notice must be given not later than one year after the date of commencement of total disability. Written proof must be given not later than 3 months after the date the notice is received by Canada Life.

PART II. LIVING BENEFITS

DEFINITIONS

Where used in this coverage, the following phrases have the meanings set forth below:

- (1) "Living benefits" means the amount of life coverage that you may elect to place under this option. The living benefits is a one-time lump sum payment which is equal to 50% of your total amount of life coverage (shown in the Summary of Coverages) in effect on the date Canada Life receives proof that you are terminally sick, to a maximum of \$50,000. However, the living benefits may be reduced if, within 6 months after the date Canada Life receives such proof, a reduction on account of age would have applied to your amount of life coverage. In that case, the amount of living benefits will be 50% of your amount of life coverage after applying the reduction, subject to the living benefits maximum.
- (2) "Terminally sick" means your life expectancy is 12 months or less.

A. OPTION

If you become terminally sick while covered under this coverage or while your coverage is being continued under the Extended Death Benefit During Total Disability section of this coverage, you may elect to have the living benefits option. Such election is subject to the provisions set forth below.

B. PAYMENT OF LIVING BENEFITS

If you elect this option, Canada Life will pay the living benefits in one sum when it receives proof that you are terminally sick.

C. TO WHOM PAYABLE

The benefit under this option is payable to you.

D. AMOUNT PAYABLE ON YOUR DEATH

Canada Life will pay to your beneficiary as determined under the beneficiary rules shown on the General Information page, in one sum, the amount of the life coverage proceeds, LESS the total of (1) the amount of the living benefits option you received, and (2) an amount representing interest calculated from the date of the living benefits payment to the date of your death, using an effective annual interest rate as notified by Canada Life when applying for living benefits.

E. CONDITIONS

Your right to be paid under this option is subject to these terms:

- (1) You must choose this option in writing in a form satisfactory to Canada Life.
- (2) You must furnish satisfactory proof to Canada Life that your life expectancy is 12 months or less, including certification by a physician.
- (3) Living benefits will be made available to you on a voluntary basis only.

Therefore:

- (a) If you are required by law to use this option to meet the claims of creditors, whether in bankruptcy or otherwise, you are not eligible for this option.
- (b) If you are required by a government agency to use this option in order to apply for, get or keep a government benefit or entitlement, you are not eligible for this option.

The deduction of the living benefits and its accrued interest take priority over any other demand or claim for benefits payable on your death.

F. EFFECT ON COVERAGE

When you elect this option, the total amount of life coverage payable on your death, including any amount under the Extended Death Benefit During Total Disability section of this coverage, will be reduced by the living benefits. Also, any amount you could otherwise have converted to an individual policy will be reduced by the living benefits.

PAY-DIRECT PRESCRIPTION DRUG PLAN

FOR YOU AND YOUR QUALIFIED DEPENDENTS

Your Pay-Direct Prescription Drug Plan covers the eligible charges for drugs, medicines and certain supplies that represent reasonable treatment of a disease or injury, when prescribed by a physician or other person entitled by law to prescribe them, and dispensed by a licensed pharmacist or other person entitled by law to dispense them.

Treatment is considered reasonable if it is:

- (1) accepted by the Canadian medical profession;
- (2) proven to be effective; and
- (3) of a form, intensity, frequency, and duration essential to diagnosis or management of the disease or injury.

Before incurring large drug expenses, you may want to confirm your coverage by contacting Canada Life with both the name and drug identification number (DIN) of the drug prescribed. You can obtain this information from your pharmacist.

Canada Life can limit the eligible charge for any drug to that of a lower cost interchangeable drug determined in accordance with Canada Life's adjudication practices at the time of claim.

An interchangeable drug includes but is not limited to:

- (1) a generic equivalent of the brand name drug deemed to be interchangeable by law where the drug is dispensed; or
- (2) a subsequent entry biologic drug.

The right to limit the eligible charge does not apply if medical evidence has been provided that indicates a contraindication to the interchangeable drug.

To have a prescription filled for yourself or a qualified dependent, take the prescription to a participating pharmacy and present it, along with your prescription drug card, to the pharmacist. Pay the required amount and the prescription will be filled.

Do not lend your prescription drug card to anyone outside your immediate family and do not leave it at the pharmacy.

If your employment ends, you are no longer eligible for this coverage.

A. SERVICES PROVIDED

The services described in this coverage are provided by the pharmacy benefits manager appointed by Canada Life and are subject to the agreement between Canada Life and the pharmacy benefits manager, as may be amended from time to time.

B. PAYMENT OF BENEFITS

After paying the required amount, a benefit will be paid if a covered person incurs eligible charges for drugs, medicines and supplies described in section C. while covered for this coverage. A charge is considered to be incurred on the date of the purchase for which the charge is made. The covered percentage is shown in the Summary of Coverages. Benefits for drug claims submitted through the pharmacy benefits manager's electronic claims system will be issued to the pharmacy benefits manager.

Covered charges for drugs eligible under any government drug plan are limited to any amounts the employee is required to pay for himself or his family under the government plan.

C. ELIGIBLE CHARGES

Eligible charges are the charges actually made to the covered person for the following drugs, medicines and supplies, subject to the assessment provisions described in section D.

Canada Life can limit the eligible charge for a drug or drug supply to that of a lower cost alternative drug or drug supply that represents reasonable treatment.

- (1) drugs, including contraceptive drugs and products containing a contraceptive drug, that require a prescription according to:
 - (a) the *Food and Drugs Act, Canada*; or
 - (b) provincial legislation in effect where the drug is dispensed.
- (2) drugs that must be injected, including vitamins, insulins and allergy extracts. Syringes for self-administered injections are also covered.
- (3) disposable needles for use with non-disposable insulin injection devices, lancets, test strips and sensors for flash glucose monitoring machines.
- (4) extemporaneous preparations or compounds if one of the ingredients is a covered drug.
- (5) vaccines used to prevent disease.
- (6) drugs that do not require a prescription by law if:
 - (a) they are listed in the current *Compendium of Pharmaceuticals and Specialties*; and
 - (b) they are categorized as:
 - antimalarials
 - fibrinolytics
 - nitroglycerin
 - potassium replacements
 - single entity fluorides
 - single entity iron salts
 - thyroid agents
 - topical enzymatic debriding agents

The following non-prescription items are not covered:

- (a) atomizers, appliances, prosthetic devices, or colostomy supplies.
- (b) first aid or diagnostic supplies or testing equipment.
- (c) non-disposable insulin delivery devices or spring loaded devices used to hold blood letting supplies.
- (d) delivery or extension devices for inhaled medications.

- (f) diaphragms, condoms, contraceptive jellies, foams, sponges, or suppositories, contraceptive implants, or appliances normally used for contraception, whether or not prescribed for a medical reason.

Canada Life can, on such terms as it determines, cover services or supplies not otherwise covered under this group benefit plan where the service or supply represents reasonable treatment.

D. ASSESSMENT PROVISIONS

Eligible charges are subject to the following assessment provisions.

(1) Prior authorization

In order to determine whether coverage is provided for certain drugs or drug supplies, Canada Life maintains a limited list of drugs and drug supplies that require prior authorization.

For drugs and drug supplies including a listing of the prior authorization drugs, go to www.canadalife.com.

Prior authorization is intended to help ensure that a drug or drug supply represents a reasonable treatment.

If the use of a lower cost alternative drug or drug supply represents reasonable treatment, Canada Life may require a covered person to provide medical evidence why the lower cost alternative drug or drug supply cannot be used before coverage may be provided for the drug or drug supply.

(2) Health case management

Canada Life may contact the covered person to participate in health case management. Health case management is a program recommended or approved by Canada Life that may include but is not limited to:

- (a) consultation with the covered person and his or her regularly attending physician to gain understanding of the treatment plan recommended by the attending physician;
- (b) comparison with the attending physician of the recommended treatment plan with alternatives, if any, that represent reasonable treatment;

- (c) identification to the attending physician of opportunities for education and support; and
- (d) monitoring the covered person's adherence to the treatment plan recommended by his or her regularly attending physician.

In determining whether to implement health case management, Canada Life may assess such factors as the drug or drug supply, the medical condition, and the existence of generally accepted medical guidelines for objectively measuring medical effectiveness of the treatment plan recommended by the attending physician.

Canada Life can, on such terms as it determines, **limit** the payment of benefits for a drug or drug supply where:

- (a) Canada Life has implemented health case management and the covered person does not participate or cooperate; or
- (b) the covered person has not adhered to the treatment plan recommended by his or her regularly attending physician with respect to the use of the drug or drug supply.

Expenses associated with health case management may be paid for by Canada Life at its discretion. Expenses claimed under this provision must be pre-authorized by Canada Life.

(3) Designated provider limitation

For a drug or drug supply to which prior authorization applies or where Canada Life has recommended or approved health case management, Canada Life can require that the drug or drug supply be purchased from or administered by a provider designated by Canada Life, and:

- (a) **limit** the eligible charge for a drug or drug supply that was not purchased from or administered by a provider designated by Canada Life to the cost of the drug or drug supply had it been purchased from or administered by the provider designated by Canada Life; or
- (b) **decline** a claim for a drug or drug supply that was not purchased from or administered by a provider designated by Canada Life.

(4) Patient assistance program

A patient assistance program may provide financial, educational or other assistance to covered persons with respect to certain drugs or drug supplies.

If a covered person is eligible for a patient assistance program, Canada Life can require the covered person to apply to and participate in such a program. Where financial assistance is available from a patient assistance program in which Canada Life requires participation, Canada Life can **reduce** the amount of a covered expense for a drug or drug supply by the amount of financial assistance the covered person is entitled to receive for that drug or drug supply.

E. EXCLUSIONS

Canada Life can decline a claim for drugs or drug supplies purchased from a provider that is not approved by Canada Life.

No benefits will be paid for:

- (1) any drug that does not have a drug identification number as defined by the *Food and Drugs Act, Canada*.

In this exclusion, government plan does not include a group plan for government employees.

- (15) drugs used to treat erectile dysfunction.
- (16) expenses arising from war, insurrection, or voluntary participation in a riot.

F. CONCURRENT DRUG UTILIZATION REVIEW

In Canada claims for covered drugs submitted electronically to the pharmacy benefits manager are subject to concurrent drug utilization review at point-of-sale to determine if:

- (1) drug interactions between prescribed drug and another drug already being taken by the patient may occur;
- (2) a prescribed drug may be harmful to a patient;
- (3) the frequency of refills is reasonable; or
- (4) the duration and dosage of the therapy is within recommended limits.

Based on the outcome of the review, a pharmacist may refuse to dispense the drug as prescribed.

Neither Canada Life nor the pharmacy benefits manager makes any guarantees about the accuracy of the patient information provided for the concurrent drug utilization review or about the review results, nor are they responsible for any decision made by a pharmacist as a result of the review process.

In order to determine whether coverage is provided for certain services or supplies, Canada Life maintains a limited list of services and supplies that require prior authorization.

For services and supplies including a listing of the prior authorization drugs, go to www.canadalife.com.

Prior authorization is intended to help ensure that a service or supply represents a reasonable treatment.

(2) Health case management

Canada Life may contact the covered person to participate in health case management. Health case management is a program recommended or approved by Canada Life that may include but is not limited to:

Canada Life can decline a claim for services or supplies purchased from a provider that is not approved by Canada Life.

(1) Any charges incurred in connection with:

- (a) Commission of, or attempt to commit, any criminal offence but not when injuries are sustained as a result of driving a vehicle when the covered person's blood contained more than 80 milligrams of alcohol in 100 millilitres of blood (.08).
- (b) Sickness due to war or any act of war, civil commotion, insurrection or hostilities of any kind.
- (c) Rest cures, travel for health reasons, periodic checkups and examinations, or pregnancy tests.
- (d) Telephone consultations made by a physician with respect to a person's sickness or injury.

(2) Any charges incurred for:

- (a) Services or supplies dispensed by a person who normally resides with the covered person or who is related to the covered person by blood or marriage.
- (b) Physicians' services or X-ray examinations involving one or more teeth, the tissue or structure around them, the alveolar process or the gums. This applies even if a condition requiring any of these services involves a part of the body other than the mouth such as the treatment of temporomandibular joint dysfunctions (TMJD) or malocclusion involving joints or muscles by methods, including, but not limited to, crowning, wiring or repositioning teeth. This does not apply to a charge made for dental treatment described in section B.
- (c) Services or supplies to the extent that they are available under any government medical, health or hospital services plan or where such a plan prohibits payment.
- (d) Services or supplies for which the covered person is not required to make payment, or where payment is received as a result of legal action or settlement.

- (f) Services or supplies to the extent that such services or benefits for such services are available under any plan or program established pursuant to the laws or regulations of any government, including any motor vehicle no fault coverage required by statute.

F. EXTENSION OF BENEFITS

If the coverage of a covered person terminates for any reason and if the covered person is totally disabled on the date of termination, benefit payments for the expenses incurred as a result of that sickness will continue during the total disability as if such coverage had continued. Benefits will continue for a period of 90 days or, if earlier, to the date the individual becomes covered under any other group plan, whether issued by Canada Life or another company.

"Totally disabled" and "total disability" means that the covered person, if an employee, is prevented solely because of sickness from engaging in any work for compensation or profit, or, if a dependent, is prevented solely because of sickness from engaging in all of the normal activities of a person of like age and sex, and who is in good health.

G. EXTENSION OF COVERAGE ON YOUR DEATH

If your dependents are covered under this coverage on the date of your death, their coverage will continue **on a non-contributory basis** until the earliest of:

- (1) 24 months from the date of your death;
- (2) the date your spouse remarries;
- (3) the date the dependent is no longer a qualified dependent;

- (4) the date that similar coverage is obtained elsewhere;
- (5) the date this coverage is cancelled; and
- (6) the date the contract is cancelled.

H. PROOF OF CLAIM

Written proof of the loss on which a claim may be based must be given to Canada Life within 15 months of the date the expense was incurred.

GLOBAL MEDICAL ASSISTANCE COVERAGE

FOR YOU AND YOUR QUALIFIED DEPENDENTS

COVERAGE

Global medical assistance is covered if:

- (1) it is required as a result of a medical emergency arising while the covered person is travelling outside Canada for vacation, business, or education; and
- (2) the covered person is covered by the government health plan in that person's home province.

Coverage for travel within Canada is limited to emergencies arising more than 500 kilometres from the covered person's home.

Assistance is provided through a worldwide communications network that operates 24 hours a day. The network assists in locating medical care and obtaining Canada Life's prior approval of covered services. The network can also approve on-site hospital payment when required for admission, to a maximum of \$1,000.

A. COVERED SERVICES

Covered services are subject to the assessment provisions described under this plan's extended health care coverage.

Canada Life can limit the eligible charge for a service to that of a lower cost alternative service that represents reasonable treatment.

Reasonable treatment is as defined in the extended health care coverage.

The following services are covered subject to Canada Life's prior approval:

(1) **Medical evacuation**

Medical evacuation is covered if suitable local care is not available. If the covered person is travelling within Canada, coverage is provided for transportation to the nearest hospital where treatment is available. If the covered person is travelling outside Canada, coverage is provided for transportation to:

- (a) the nearest hospital outside Canada where treatment is available; or,
- (b) a hospital in Canada.

When services are covered under this coverage they are not covered under other coverages in this plan.

(2) Family assistance

Round trip economy class transportation and lodging are covered for one family member joining a covered person who will be hospitalized for more than 7 days while travelling provided that there was no family member travelling with the covered person.

(3) Travelling companion

Extra lodging costs are covered for one travelling companion when the return trip for the covered person and travelling companion is delayed because the covered person is hospitalized.

Exclusion

No benefits are payable for extra lodging costs for a travelling companion if family assistance benefits are claimed under (2) for the same period of confinement.

(4) Transportation reimbursement

The cost of comparable return transportation home for a covered person and one travelling companion is covered if prearranged, prepaid return transportation is missed because the covered person is hospitalized. A rental vehicle is not considered prearranged, prepaid return transportation.

Exclusion

Any amount for which other compensation is available is not covered.

(5) Death

In case of death, preparation of the covered person's body and its return transportation home are covered.

(6) Unaccompanied minor children

Return transportation home is covered for minor children who had travelled with the covered person and who are left unaccompanied because of the covered person's hospitalization or death. Return or round trip transportation for an escort for the children is also covered when considered necessary.

(7) Vehicle return

The cost of returning a covered person's vehicle, whether private or rental, home or to the nearest appropriate vehicle rental agency is covered when sickness or injury prevents the covered person from driving. The maximum amount payable is \$1,000.

Exclusion

No benefits will be paid for vehicle return if transportation reimbursement benefits are claimed under (4) for the same period of confinement.

Canada Life can, on such terms as it determines, cover services or supplies not otherwise covered under this group benefit plan where the service or supply represents reasonable treatment.

B. REFUND OF ON-SITE HOSPITAL PAYMENTS

Where on-site hospital payments exceed Canada Life's liability for that confinement under this group benefit plan, the covered person must refund the excess to Canada Life. If the hospital confinement is not covered in this group benefit plan, Canada Life is entitled to a full refund of the amount advanced.

C. LODGING LIMITATION

Benefits for lodging are limited to moderate quality accommodation for the area of hospitalization. Telephone expenses as well as taxicab and car rental charges are included. The maximum amount payable for lodging expenses is \$1,500 per confinement.

Exclusion

Meal expenses are not covered.

D. DISCLAIMER

Neither the communication network nor Canada Life is responsible for:

- (1) the availability, quantity, quality, or results of any medical treatment a person receives; or
- (2) any unsuccessful attempts by a person to obtain medical services.

E. IDENTIFICATION CARDS

If a covered person's coverage terminates for any reason, the employer is responsible for immediate recall of the global medical assistance identification cards.

F. LIMITATIONS

Canada Life can decline a claim for services purchased from a provider that is not approved by Canada Life.

No benefits will be paid for:

- (1) expenses that private insurers are not permitted to cover by law.
- (2) services the person is entitled to without charge by law or for which a charge is made only because the person has insurance coverage.
- (3) expenses arising from war, insurrection, or voluntary participation in a riot.

G. EXTENSION OF BENEFITS

If the coverage of a covered person terminates for any reason and if the covered person is totally disabled on the date of termination, benefit payments for the expenses incurred as a result of that sickness will continue during the total disability as if such coverage had continued. Benefits will continue for a period of 90 days or, if earlier, to the date the individual becomes covered under any other group plan, whether issued by Canada Life or another company.

"Totally disabled" and "total disability" means that the covered person, if an employee, is prevented solely because of sickness from engaging in any work for compensation or profit, or, if a dependent, is prevented solely because of sickness from engaging in all of the normal activities of a person of like age and sex, and who is in good health.

H. EXTENSION OF COVERAGE ON YOUR DEATH

If your dependents are covered under this coverage on the date of your death, their coverage will continue **on a non-contributory basis** until the earliest of:

- (1) 24 months from the date of your death;
- (2) the date your spouse remarries;
- (3) the date the dependent is no longer a qualified dependent;
- (4) the date that similar coverage is obtained elsewhere;
- (5) the date this coverage is cancelled; and
- (6) the date the contract is cancelled.

I. PROOF OF CLAIM

Written proof of the loss on which a claim may be based must be given to Canada Life within 15 months of the date the expense was incurred.

DENTAL CARE COVERAGE

FOR YOU AND YOUR QUALIFIED DEPENDENTS

DEFINITIONS

Where used in this coverage, the following words or phrases have the meanings set forth below:

- (1) "Dentist" means a duly licensed dentist practising within the scope of his or her profession and any other licensed, certified and/or registered dental auxiliary personnel.
- (2) "Eligible charges" means the charges actually made to the covered person for services which are included for payment in the List of Dental Services described in the following pages, and which are reasonable, necessary and customary for good dental care and are performed or recommended by a dentist, performed by a dental hygienist entitled by law to practise independently, or performed by a denturist; to the extent that the charges:
 - (a) do not exceed the amount specified in the fee guide shown in the Summary of Coverages;
 - (b) are not provided by any law or governmental program under which the individual is or could be covered; and
 - (c) exceed the amount payable under any other coverage of the contract, any Workers' Compensation Act or similar law, or any other source.

When 2 or more covered dental procedures are separately suitable for the dental care of a specific condition, and both are consistent with good dental care, the contract will provide benefits for the least expensive service.

When a charge is made for an unlisted service furnished for the dental care of a specific condition and the list contains one or more services which, under standard practices, are separately suitable for the dental care of that condition, the contract will provide benefits for the least expensive service.

Where a covered dental expense does not appear in the prevailing fee guide, the amount of the eligible charge for such procedure will be determined by Canada Life on a reasonable and customary basis.

Denturist fee guides are applicable when services are provided by a denturist. Dental hygienist fee guides are applicable when services are provided by a dental hygienist practising independently.

- (3) "Orthodontic procedure" means the movement of teeth by means of active appliances to correct the position of maloccluded or malpositioned teeth.

(4) "Orthodontic treatment plan" means a dentist's report, on a form satisfactory to Canada Life, which:

- (a) describes the recommended treatment for orthodontic procedures;
- (b) estimates the duration over which treatment will be completed;
- (c) states the total charge for such treatment; and
- (d) is accompanied by cephalometric X-rays, study models, photographs and such other supporting evidence as Canada Life may reasonably require.

(5) "Reasonable and customary charge" means the usual charge made for the covered dental expense, in the absence of coverage, but not more than the prevailing charge in the area where the expense is incurred.

A. PAYMENT OF BENEFITS

After satisfaction of the deductible, a benefit will be paid if a covered person incurs eligible charges for the covered dental procedures described in the List of Dental Services while covered for this coverage. Benefits will be equal to the covered percentage once the deductible has been satisfied, up to the maximum shown in the Summary of Coverages. The deductible and the covered percentage are shown in the Summary of Coverages.

Deductible carry-over provision

Any expenses incurred in the last 3 months of a calendar year which are used toward satisfying the deductible for that year may also be used toward satisfying the deductible for the next calendar year.

Charge incurred

When a covered dental procedure requires multiple appointments to complete, the charge will be considered to have been incurred on the date the procedure was completed, subject to any limitations or exclusions in this coverage.

Materials to be furnished

In order to determine the eligible charges, Canada Life may ask for pre-treatment X-rays and other diagnostic and evaluative materials. If they are not given, Canada Life will determine eligible charges on the basis of the information which is available. This may reduce, or eliminate, the benefits which otherwise would have been payable.

Temporary appliances

A temporary appliance is considered to be a permanent appliance once 12 months have elapsed from the date of insertion. Thereafter, any limitations on the replacement of permanent appliances will apply to temporary appliances on the same basis.

Pre-determination of benefits

Canada Life recommends that a treatment plan, in the form of a report prepared by the dental service provider, be submitted prior to commencement of treatment when:

- (1) the course of treatment is expected to cost more than \$600; or
- (2) there are alternative methods of treatment.

Canada Life will review the treatment plan and advise the covered person of the amount payable under this coverage, **before** the dental work begins.
